INDUSTRIAL GRINDER

The KF-1800 and 1403 models are the unparalleled solution for industrial use in small to medium-size roasting establishments where huge grinding capacity is required but space is at a premium.

- Specially developed motors allowing large grinding capacity at all degrees of fineness.
- Preservation of coffee's unique aromatic oils thanks to uniform, gentle and cool grinding made possible by built-in fan and specially sharpened discs developed by ditting.
- Continuously variable adjustment of grinding fineness.
- Precision grinding discs made of high-quality material that is extremely wear-resistant. The original discs can be re-sharpened up to 1-2 times with proper care and maintenance.
- Easy to maintain and clean.
